I Love Lucy Solution

This is a game of Hearts. Each line represents the point cards that each player got during each round. The lowercase a, j, q, and k are the Ace, Jack, Queen, and King of hearts, respectively; the uppercase Q is the Queen of Spades. In each round, the player gets a number of points between 0 and 26; we count the number of points in each highlighted square and decode into letters. We read this to get the answer, MORE THAN ANY OTHER.
